Location  p = results pending

Sample ID (number)

Plant Count

**ELISA TEST RESULTS FOR LATENT VIRUSES (na=not conducted)**

%PVY  %PVX

**Other Diseases**

Other Diseases	Not known to occur in growers area.	No. of years since last found in lot entered for certification on this growers farm, or NONE ON RECORD if free >10 years.	Not found this year during normal certification field inspections.
Bacterial Ring Rot		none	X
Late Blight		none	X

**Notes:**

To be eligible for recertification in Oregon, all seed lots must pass a post-harvest winter grow-out evaluation at a class of G4 or better.

WTE = lots that are winter test exempt (any lot 750 lbs or less that has been virus tested in the field). NA = not applicable

\*1 - (if shown) OSCS has no record for this material prior to year indicated, contact source state/province for more information

\*2 - Material not of Oregon origin (initially) are assumed have originated from tissue culture unless denoted otherwise by state of origin.

Note: LF = Lane Farms (LF); Kamps = Kamps Seed Farm; = ; =

The above information is accurate to the best of our knowledge:
